

UNDERTHEMOON

HUNGARIAN TEAM

We are the Hungarian team of the Under The Moon programme, Mester Ákos, Bata Zalán, Papp Zsuzsanna, Vajda Boróka, and our great patron, Gábeli Tamás.

We are all in connection with different kinds of media, the adult members have a profession which is in connection with it, and the youngsters are studying media, or

just do it as a hobby. So it was a great opportunity to us, to become a part of this kind of project like UTM.

HUNGARIAN TEAM

From the beginning it was really inspiring to be a part of the birth of a movie, in which we can show our ideas, our skills, and we have the chance to show the problems of our country. And last but not least we can try ourselves in making a real movie. During the international meetings, we could discover, how successful is to work together with people from different countries.

It was a great experience to find out, that we have almost the same problems in each country, so we can understand each other.

We think that one of the most important things in our lives to get to know a lot of people, to communicate with them, to

understand them, and the country borders can not stop it. That's why UTM is a great chance for us as well.

So we are looking forward to participate in the **International Youth Media Summit** in Belgrade. We think that it can be one of the most inspiring and exciting experience of our lives.
